Hi Brad,	
	nis week on Q2 planning for all things XRP. The goal is to drive XRP speculative tactics against the following 'themes':
1.	
Taking on skeptics 1.	
Supply - escrow announcement 2.	
Decentralization - validator roll-ou 3.	ts
Connect XRP with Ripple Network 2.	
Demonstrating technical superiority 1.	
Reboot technical media properties	i ·

Crypto thought leadership (David,

Market key technical features 3.
Momentum 1.
Sign exchanges 2.
Wallet integrations 3.
Influencer engagement 4. Spark speculation about potential partnerships
Out of the gates, Marketing is doing customer research to understand speculator motivations, and BD is racing to get Kraken live for easier XRP buying.
The specific actions in the plan are on the 2nd and 3rd page here
but I wanted to highlight the ideas I'm most eager to get done:
 - A public event where we sign the XRP into escrow. - 3 announcements with multiple exchanges; biggest one with BitGo at
Consensus Validators live at the consensus of the cons
- Signed institutional FX exchange to service XRP order books for the
50-bank Japanese consortium (Targets:
- 'Enterprise Validators' - form and announce a federation of enterprise stakeholders empowered to vote through any issues that are stuck in
disagreement at the Amendments level (demonstrates governance superiority
and enterprise quality) Form and announce regulatory advisory group for digital assets; target
2 central banks statements about the utility of XRP. - Put David Schwartz on the same speaking circuit as
Let me know if you have any specific feedback or ideas. Next steps: dedicated brainstorm on the company escrow, cascade to teams, plan read out next Friday.
